

"Infiltrate" is an 8-hour course which focuses on confidential informant cultivation, management and operations. Additionally, the course will take a deep dive into undercover operations; both undercover street operations and undercover jail operations, supporting homicide cases. This training program is designed for law enforcement personnel currently assigned to a special investigative unit, those looking to transfer into a specialized unit, or supervisors managing a gang, narcotics, or undercover unit. This course is taught by a 30-year veteran of a Southern California law enforcement agency who has worked approximately 75 undercover operations throughout the Nation, both on the streets and in jail settings. He has also been the handler of several high level confidential sources. The presentation will include case studies with operational videos, audio clips, and photos. This course will provide the knowledge and skills in cultivating and managing confidential informants, safely conducting undercover operations, and much more. This is a class unlike any other, sign up now for our next offering!
